ARSENIC FOR BAKING POWDER.

Five Emisaries Decapitated by the Natives of Touat.

A San Francisco Police Officer Killed by His Wife.

Death by Suffocation.
By Associated Press.]

DENVER, Nov. 9.—Mansion's livery stable was almost completely burned this morning. Four men, possibly five, rooming in the upper portion of the building were suffocated, and between twenty and thirty horses met death the same way. The names of the dead men could not be learned. A number of other roomers had narrow escapes. It is not known how the fire originated. The financial loss is $20,000; insured for one-half.

Thirty-four horses in the second story of the building were burned to death. They were all family horses of private individuals and valued from $300 to $750 each. The loss on the building and carriages will be in the neighborhood of $15,000.

The names of the men who lost their lives are: Thomas Bower, of Peoria, Ill.; Geo. Richards, Lincoln, Neb.; David Elmore, residence unknown; Otto Helbin, St. Louis. It is thought the remains of two more men are in the ruins.

Five Emisaries Decapitated.
By Cable and Associated Press.]

GIBRALTER, Nov. 9.—A dispute between the French Government and the Sultan of Morocco regarding the ownership of the Oasis Touat, does not seem to be approaching solution, and if France remains steadfast in her determinations to take possession of Touat there is no doubt that serious trouble will follow. The majority of the inhabitants of the Oasis do not look with favor upon the claims of either country, but desire to throw aside all foreign government and form an independent government of their own. The Sultan of Morocco recently sent a number of emisaries to Touat to endeavor to gain support to his pretentions to the sovereignty, but the reception they met with will be apt to deter others from attempting to influence the natives of Touat. The natives confined the emisaries and subsequently decapitated five of them.

Bruner's Case Postponed Again.
Special to the GAZETTE.]

SAN FRANCISCO, Nov. 9.—Argument on the temporary writ of prohibition, restraining Superior Judge Wallace from further proceedings in the Bruner case began in the Supreme Court this morning. The Supreme Court, by its attorneys, filed a demurrer to Bruner's petition, and Attorney Rhodes asked for further time in which to prepare arguments. It was agreed to continue the case until Monday morning at Sacramento, returns of the respondent, however, to be made here Thursday.

The Williams and Bainberger and Vempfer cases were continued in Judge Wallace's Court until after the Supreme Court hearing in the Bruner matter.

The Chicago Anarchists.
By Associated Press.]

CHICAGO, Nov. 9.—The Chicago Anarchists yesterday defied the authorities of the United States, and District Attorney Milchrist is to-day preparing to proceed against the ringleaders. During the Anarchist parade yesterday the drivers of two United States mail wagons were delayed by the Anarchists, and riots were narrowly averted in each case by the prompt action of the citizens.

Arsenic Used for Baking Powder
Special to the GAZETTE.]

SAN FRANCISCO, Nov. 9.—An Orangevale special says: Z. P. Brandon and wife died from arsenical poisoning. The grown son and daughter were also poisoned; the former is expected to die. Arsenic was used by the family, who are amateur tacidermists, and placed in the biscuits by mistake for baking powder.

Two Families Fight
By Cable and Associated Press.]

DUBLIN, Nov. 9.—Two families, named Lynch and Hurley, living in Dunmanway, county Cork, in a fight over the possession of land, five persons were fatally injured and other participants in the fight were injured but not severely.

Weather Report.
Special to the GAZETTE.]

SAN FRANCISCO, Nov. 9.—Forecast, fair weather.

Killed by His Wife.
Special to the GAZETTE.]

SAN FRANCISCO, Nov. 9.—Police Officer Jermiah T. Cotter was shot and killed this morning by his wife at their residence on Fifteenth street. The couple had a quarrel, originating, it is stated, from a report that the Police Commissioners would examine Cotter to-night on a charge of intemperance. Mrs. Cotter claims her husband attacked her and that she fired two shots in self defense, one of which took effect in his back, killing him instantly. The woman surrendered herself and was taken to jail. It is stated that the couple had a quarrel in February last, during which Cotter fired at his wife.

Saturday Mrs. Cotter called at police headquarters and paid her husband's dues in the Widow and Orphans' Aid Association. She stated at the time that her husband was unwell, and this morning Chief Crowley received a doctor's certificate that it would be impossible for Cotter to leave home to-day. The note and certificate were turned over to Sergent Bethel, who has supervision over the sick officers, and he was reading them when the news of the murder was received. Cotter was to have appeared before the Commissioners this evening to answer a charge of intoxication while on duty. He was charged with a similar offense less than a month ago.

Chas. Vest, who shot his wife at The Brooklyn Saturday and then attempted to commit suicide, was to-day removed from the City Receiving Hospital to the hospital in the City Prison. Vest's chances of recovery are of the best, and he was able to walk, with the aid of Officer Anderson, to his new quarters, a distance of about a half a block. Mrs. Vest's wounds are painful, but it is not expected they will prove fatal.

A Large Subsidy.
By Associated Press.]

WASHINGTON, Nov. 9.—The Bureau of American Republics is informed from official sources that there is now in operation in the republic of Mexico 10,183 kilometres of railway, which is equal to 6,325 miles. The bureau received a notice from the Congress of the State of Nuovaleon, Mexico, that for the purpose of encouraging the cultivation of the fiber plants, it has exempted from taxation for a period of twenty years, all lands devoted to that purpose.

The bureau is informed that the Legislature of the State of Espirito Santo Brazil has passed a bill granting a subsidy of $60,000 a year for the establishment of a direct steam communication with the United States.

A Parade Spoiled.
By Calbe and Associated Press.]

LONDON, Nov. 9.—Great preparations have been made for the usual parade to-day and the other ceremonies attending upon the inauguration of the Lord Mayor elect, David Evans. The expectations of many would-be sight-seers were dampened by the knowledge that the day would not be favorable for any outdoor display. Rain was falling and so it fell out that though the parade was carried out as arranged, it was spoiled by the dismal weather.

The Italian Premier's Speech.
By Cable and Associated Press.]

ROME, Nov. 9.—Marquis Di Rudini, Italian Premier, to-day delivered a long speech at Milan. Part of his speech was devoted to the financial situation of the Government. During the course of his remarks he announced that a complete equilibrium was established in the budget. Not only were the estimated receipts fully equal to the expenditures, but even a small surplus in the receipts might be expected.

Austria-Hungarian Budget.
By Cable and Associated Press.]

VIENNA, Nov. 9.—The Austria-Hungarian Budget for 1892 was presented to the delegations to-day. It shows that the estimated espenditures for the fiscal year of 1892 amount to 139,112,886 florins, which is an increase of 3,802,459 florins. The expenditures on account of the army are estimated at 119,265,232 florins, an increase of 4,320,828 florins.

A Plot Discovered.
By Cable and Associated Press.]

LONDON, Nov. 9.—The *Times* has a dispatch from Tangier saying: "A plot has been discovered to place the Sultan's favorite brother, Muley Ismail, on the throne. The Sultan's chief adviser has been disgraced and dismissed, and Ismail, who was Khalif of Fez, has been deposed and sent to Morocco with several noble accomplices."

Died from Their Wounds.
By Cable and Associated Press.]

BERLIN, Nov. 9.—The Summerfields, father and son, both members of the firm of Friedlander & Summerfield, bankers of this city who failed Saturday last, and who after the close of the day's business opened veins in their arms and then shot themselves in the head with revolvers have both died.

Revision of the Confession of Faith
By Associated Press.]

NEW YORK, Nov. 9.—The report on the proposed revision of the confession of faith presented by the Presbytery of New York, the *Tribune* says, reads in part as follows: "Your committee has carefully examined the proposed revision, chapter by chapter and section by section, and recognize the wisdom, prudence and skill with which the general assembly and committee labored upon it. We are of the opinion that it shows very clearly the possibility of revising our confession of faith without impairing in the least our system or doctrine, but rather in such a way as to support and defend it, by making it plainer, stronger and more scriptural; and that such a revision would not hinder, but advance and prosper the formation of a new and shorter creed. This desire was expressed by the Presbytery of New York two years ago. We feel it is important to have a revision which shall really revise. The great objects of this deep movement in the church should be as full as possible. It seems to us these objections are two: First—"A frank, explicit and unhesitating declaration of the living faith of the church in God's loving and true offer of salvation to all men through Christ, by His word and spirit. Second—Clearing our confession of faith from the possibility of fatalistic misinterpretations." Hence these among other recommendations of changes are made, all in reference to the sovereign pretention of eternal foreordination to everlasting death, or any doctrine of non-election should be omitted. A substitute for Section 7 should be written to declare in substance a doctrine of God's sovereign election is to be received and interpreted in harmony without truth, that He is not willing that any should perish, but that all should come to repentance, that He has given His son to be a propitiation for the sins of the whole world, and that whosoever cometh unto Him shall not be cast out, but whosoever will not come shall perish."

Outlaws Routed.
By Associated Press.

GUTHRIE (O. T.), Nov. 9.—Indian agent Patrick, Sheriff Conley of the Sax and Fox Nation and Deputy Marshal Williams went to the place where Marshal Thornton was murdered, and were fired upon by the same gang of outlaws who killed Thornton. After a lively battle the outlaws were routed.

A Large Sale Contemplated.
By Associated Press.]

NEW YORK, Nov. 9.—Abram S. Hewitt, of Cooper, Hewitt & Co., this morning confirmed the report that he contemplated the sale of the entire property of the company, but to whom he refuses to say. He says the intended purchasers are Americans. The sale is not yet consumated.

Decrease in English Trade.
By Cable and Associated Press.]

LONDON, Nov. 9.—The *News*, commenting on the Board of Trade returns, says: "The decrease of twenty per cent in our trade with America may fairly be attributed to the McKinley law. The diminution in the demand from other countries must be ascribed to financial depression."

Postoffice Burned.
Special to the GAZETT.]

PORTLAND (Or.), Nov. 9.—Early this morning a fire occurred in the Albino postoffice. A saloon, barber shop, dry goods store and drug store were consumed with their contents, except a portion of the drugs and dry goods. The total loss is estimated at $12,000; fully insured.

A Proclamation.
By Associated Press.]

HARRISBURG, Nov. 9.—Governor Pattison to-day issued a proclamation calling upon the citizens to prepare for furnishing their full proportion toward the interest value of the financial prosperity of the Columbian Exposition at Chicago.

Committed By Three Negroes.

CHILIAN HOSTILITY CEASED.

Great Discontent in all the Provinces of Brazil.

A Superb Birthday Present to the Prince of Wales.

A Learned Assemblage.
By Associated Press.]

WASHINGTON, Nov. 9.—The Supreme Court chamber was crowded this morning. Distinguished members of the bar were present to hear the arguments in the Hayward Behring Sea sealers case. Ex-Secretary Bayard and ex-Attorney-General Garland, of President Cleveland's Cabinet, ex-Senator Edmunds, Senator Mitchell, of Oregon, Representative Springer, of Illinois, and others were present, besides Attorney-General Miller, Solicitor-General Taft, Joseph H. Choate, of New York, and others who will take part in the argument. Justice Bradley, who has been in feeble health for several months past, was present. The Court will therefore hear this and other important cases, and Justice Bradley will take part in hearing such of them as his health will permit, and the others will go on without him.

Chilian Hostility Ceased.
By Associated Press.]

WASHINGTON, Nov. 9.—A cablegram received by Secretary Tracy from Captain Schley, dated Valparaiso, Chili, yesterday, states there is no indication of any feeling of hostillty toward the Baltimore's company at Valparaiso.

Regarding the report of unusual activity and Sunday work in the navy yards, it is said at the Navy Department that it has no warlike significance. No order has been sent from the Department for Sunday work, and it is not known officially that there has been any. It is a common practice to work the force of men overtime at the navy yards when there is particular need of haste, and if the work has been pushed on Sundays it has been in pursuance of the general order to hasten the work of repairs on the ships in order to have them in readiness for their winter cruises.

Brazil Unsettled.
By Cable and Associated Press.]

LONDON, Nov. 9.—Dispatches received here to-day from Pernambuco, show that the troubles in Brazil are approaching an acute crisis, and there is much anxiety expressed in financial and commercial circles regarding the outcome of Fonseca's action in dissolving Congress and appearing again in the role of Dictator. Grave doubts are expressed as to the success of this move. These dispatches state that from the province of Rio Grande Do-Dul comes intelligence to the effect that the local government refused to acquiesce in the assumption by Da Fonseca of the power of Dictator, and has declared the independence of the provinces. The dispatches further state that there is great discontent throughout all the provinces of Brazil.

A Fiendish Outrage.
By Associated Press.]

PLEASANTON (Kas.), Nov. 9.—Saturday afternoon Dan Williamson and Bert Austin, negro coal miners, were arrested and taken to the county jail at Mound City. They were charged with a fiendish outrage on Maggie Luce, the 16-year-old demented girl of the Wood family. The girl is not expected to recover. Yesterday two full attempts to lynch the fiends were made. The prisoners were taken to Fort Scott. Trouble is looked for today when the prisoners have their preliminary examination.

Perjury and Embezzlement.
By Associated Press.]

PITTSBURG, Nov. 9.—A member of the Auditing Committee, who was appointed to investigate the offices of Mayor Wyman, of Allegheny, stated this afternoon that a resolution presented at a meeting of the General Committee to-night charged Mayor Wyman and Chief of the Department of Public Safety Murphy with perjury and embezzlement.

$50,000 Loss.
By Associated Press.]

RAPID CITY, Nov. 9.—The business portion of Buffalo Gap, a small town fifty miles south of here, has been burned. The fire originated in Thompson's store, and aided by a strong wind, swept down Main street, taking everything in its course. The estimated loss is from a hundred to a hundred and fifty thousand dollars.

Prince of Wales' Birthday.
By Cable and Associated Press.]

LONDON, Nov. 9.—To-day is the fiftieth anniversary of the birth of the Prince of Wales. The occasion is being celebrated in a quiet manner at Sadringham, in Norfolkshire. A large number of congratulations were received. To-day Sir Augustus Harris, John Hare, Mr. Bancroft, Beerbohm Tree and Oley Carte, representing the theatrical profession, proceeded from London to Sandringham, where they privately presented a gold cigar box to the Prince. The present is a superb specimen of the goldsmith art. It weighs one hundred ounces, and the value of the metal alone is very great. The top of the box is surmounted by three ostrich feathers forming the coat of arms of the Prince of Wales set in diamonds.

The Report Not True.
Special to the GAZETTE.]

VALLEJO (Cal.), Nov. 9.—Admiral Irwin, in an interview to-day said: "There is no authority for the statement that the force at Mare Island Navy Yard was to be increased to 1,000 to rush work on the ships, but repairs on the Mohican are being rushed along and machinists are being worked overtime. The rush of work will last for a short time only. The force of men at the yard numbers about 650."

A Fine Hotel for Reno.

The GAZETTE Saturday evening published an item to the effect that Wm. Thompson is about to organize a joint stock company for the purpose of constructing a one hundred thousand dollar hotel on the plot of ground now occupied by the Riverside. This may seem to the unthinking a wild and visionary scheme, but we believe a sober second thought will dispel any such idea from the public mind. The grounds for the intended structure are amply large to build a second edition of the Hotel Del Monte, with beautiful grounds surrounding the same, and situated as they are on the banks of the Truckee, would make one of the most aristocratic places of resort on the coast. The hotel, too, would be but a day's drive from Webber, Donner, Tahoe and all the other mountain resorts, and if our climatic advantages were properly advertised there would be no trouble in keeping such a house full to overflowing the year round, and Reno would become a fashionable place of resort for the wealthy and health-seeker in a year's time. There are rich people traveling all over the world every day hunting climate, and surely they cannot find such a one as Nevada possesses. We are not situated now so to advertise our splendid, health-restoring, invigorating atmosphere, for we have not hotel accommodations sufficient to gratify the wealth and culture of the nation; but if it was generally known throughout the United States of the health-giving qualities of the Nevada climate, with first-class hotel accommodations, there are hundreds who flock to Carlsbad, resorts in Italy, and every other place in the old world, who would come to Reno to rest and recuperate their weary brains. Take, for instance, Colorado Springs. Nothing has made that a big city of 60,000 but climate. Nothing but climate keeps up San Diego. Looks at the thousands who flock to Los Angeles hunting climate, nothing but climate, and a fine hotel has made Santa Barbara world-renowned as a health resort. The climate of Florida is eagerly sought after, and none of these places ever had or ever will enjoy such a one as Nevada has. There are more sunshiny days in a year here than in any other place under the sun. The nights are delightfully cool and bracing, and the health-seeker can come here with perfect confidence of getting relief, from the man with one lung to the most confirmed dispeptic; the overworked financier from the busy cities East can come here and be absolutely certain of getting the relief his tired brain needs. All the town wants is a little energy displayed to bring thousands to the banks of the Truckee, and Mr. Thompson has sounded the key note of success if he pushes his intended scheme to completion. Let the people think this proposition over and see if they do not agree with the GAZETTE in saying that there is nothing visionary about it.

THE Eureka Sentinel says: It looks to us now as though the Democratic candidates were bound to be either Grover Cleveland, David B. Hill or Roswell P. Flower. Either of the latter would be more acceptable than the former. Harrison on the Republican side, and a New York man at the head of the Democratic ticket, is about the way the East will dish up things for us next year. The Farmers' Alliance presents but a poor rallying point, and so here we are again with no hope for silver, unless something is done by Congress this winter. Under these circumstances the mining States should begin to shape themselves to do a little independent voting for the benefit of silver and nothing else. We can all unite on silver.

THE Eureka Sentinel says: Things have been too prosperous this year to do the Democrats any good.

A DEER WHIPS A BULL.

The Fight in a Pasture Lot That Farmer Goodrich, of Panther Hill, Saw.

Abner M. Goodrich, who lives on Panther hill, thirteen miles south of Scranton, Pa. says the New York Sun, saw a buck deer strolling along the edge of a piece of woods on his place a few days ago. Suddenly the buck stopped, threw back his antlers and began grazing toward the farm buildings. The hillside pasture field, twenty rods below the buck, Mr. Goodrich's herd of cattle were grazing. All at once the buck caught sight of the cattle, and, leaping over the fence, bounded down the hillside toward them. The cows became frightened at the buck's sudden appearance, and with their tails in the air they cantered to a corner of the pasture. The bull in the herd did not run.

When the buck saw the cows capering away he came to a sudden stop. The bull immediately faced the strange animal, bellowed savagely and began to paw up the dirt. At first the buck acted as if he didn't know what to make of the noisy bull's actions. He backed off a few feet and the bull slowly followed him. Then the bull made a lunge at the buck with lowered horns, and the buck got out of his way by bounding to one side. This was repeated a number of times, the bull becoming more angry at each failure to gore the buck, while the buck eyed his noisy antagonist and kept out of his reach.

Finally the buck began to get mad at the way the bull was making him shift his ground. When the bull again lunged at him he uttered a loud bleat, bounded into the air and struck the bull in the neck. One of the bull's horns pierced the buck's shoulder, and then the buck's fighting nature was aroused to the highest pitch. He danced all around the bull, jammed his prongs into the bull's sides, struck him with his sharp hoofs and didn't give the bull another chance to gore him.

Soon the buck's energetic and fierce attack completely demoralized the bull. He made one more effort to down his lively antagonist but failed to hook him, while the buck got in another telling strike on the bull's ribs. Then the bull gave a bellow of rage, turned tail like a flash and ran at the top of his speed to where the cows were huddled. For a moment the triumphant buck stood and gazed at the fugitive bull. Then he whirled, legged it up the hill, scaled the fence and disappeared in the forest. The bull was so badly injured that Mr. Goodrich had to kill him.

SNOW ON THE MOON.

Remarkable Discoveries Made by Lick Observatory Astronomers.

Remarkable discoveries have been made at the Lick observatory, says the Detroit Free Press. Prof. Holden, the director, has secured through the big telescope better photographs of the moon than have been taken anywhere else, and the work of photographing goes on every hour when the satellite is visible. By studying these photographs with a magnifying glass and comparing them any changes taking place on the surface of the moon may be discovered.

The astronomers on Mount Hamilton have discovered some things that nobody else ever saw, but they have not determined whether these are new features or things that are too small to have been seen through a less powerful telescope. For example, upon the top of one of the mountains of the moon the photograph shows a luminous white spot that looks like snow. If that is snow and if it was not there before, the presence of an atmosphere is indicated. It has been believed that the moon has no atmosphere and therefore unhabitable; but if it should be demonstrated that snow falls upon the surface of the satellite, the accepted theory would be upset and astronomers would begin to study the moon with new and greater interests.

AN ALARM-CLOCK ROOSTER.

He Goes Off More Reliably Than Any Store Clock.

The Huntsville (Mo.) Herald says that Bob Murphy, who lives with his father, Mr. P. C. Murphy, four or five miles northeast of Huntsville, is an enthusiastic chicken fancier, and regards the rooster as superior to all mechanical inventions as a time indicator. One day recently Bob and his brother Ernest made up their minds to go with the Moberly Sunday-school excursion to Columbia. To do this they had to get up about three o'clock in the morning, so as to catch the early southbound train at Cairo for Moberly.

Fearing they might not awaken in time, and not having much confidence in the alarm clock, Bob went to the chicken house, caught his favorite gamecock, took him to the house, placed the cock on the head of the bedstead and retired, sleeping as soundly and sweetly as an infant child with a full stomach. The cock, as if anticipating perfectly what was required of him, remained quiet until three o'clock sharp, when it commenced crowing lustily, arousing the sleepers and enabling them to reach Cairo and Moberly on time. This is no fiction, but a fact, vouched for by a thoroughly reliable person.

A New Game.

A new outdoor game is "Anelotto." It is played with rings. They are raised about six or seven feet from the ground by means of slight iron rods, and the game consists in sending light balls through a series of them. This is done by using a racquet, and requires considerable skill, as the diameter of the rings is only about ten inches, while the balls are of the ordinary tennis size, and the player is expected to stand some thirteen feet from the ring. It was invented by the vicar of Old Buckenham, Norfolk.

The Queen's State Bows.

Queen Victoria is said to have made use for years of a mechanical device to enable her to rise in her carriage and bow to her enthusiastic subjects. Very strong springs are arranged under the carriage seat, and when the procession moves she can, by simply pressing a button at her side, be elevated into the attitude of acknowledgment as often as the cheers of the lookers-on require. These might be called "mechanical bows," but the queen furnishes a very natural accompaniment of smiles.

Pure Blood

Is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, salt rheum, and all other insidious enemies which attack the blood and undermine the health. It also builds up the whole system, cures dyspepsia and sick headache, and overcomes that tired feeling.

Scrofula Sores.

"My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

Just 24.

In just 24 hours J. V. S. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. We refer by permission to W. H. Marshall, Brunswick House, S. F.; Geo. A. Werner, 531 California St., S. F.; Mrs. C. Melvin, 136 Kearny St., S. F., and many others who have found relief from constipation and sick headaches. G. W. Vincent, of 6 Terrence Court, S. F. writes: "I am 60 years of age and have had constipation 25 years. I was induced to try Joy's Vegetable Sarsaparilla. I recognized in it an herb the Mexicans used to give us in the early 50's for bowel troubles. (I came to Cal. in 1850,) and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles." Ask for

The waiter had brought Farmer Blossom a particularly deminutive "pat" of butter. The old man picked up the dish, looked at it closely and observed: "Wipe the grease spot off that plate and bring me some butter." But it did not occur at the Riverside for Chamberlain gives you gilt edged and plenty of it.

Mason Valley News.

Jas. Johnson and wife arrived last evening from Mason Valley. Mrs. Johnson leaves this evening for New York where she will spend the winter visiting her relatives. They report everything as looking bright and prosperous in the valley, where 3,000 head of cattle will feed this winter, thus enabling the farmers to dispose of all their surplus hay which is selling for $3 per ton. The prospects for the creamery are very favorable.

There is None Better.

Dr. R. L. St. John of Howland, Putnam county, Missouri, takes especial pleasure in recommending Chamberlain's Cough Remedy, because he knows it to be reliable. He has used it in his practice for several years, and says there is none better. It is especially valuable for colds and is a preventive and cure for croup. This most excellent medicine is for sale by J. B. McCullough, Druggist.

Pronounced Hopeless, Yet Saved

From a letter written by Mrs. Ada E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my Lungs, cough set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My Husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and I thank God I am now a well and healthy woman." Trial bottles free at W. Pinniger's drugstore, regular size 50 c. and $1.

What They are Good For.

Brandrath's Pills are the best medicine known.

First—They are purely vegetable, in fact a medicated food.

Second—The same dose always produces the same effect—other purgatives require increased doses and finally cease acting.

Third—They purify the blood.

Fourth—They invigorate the digestion and cleanse the stomach and bowels.

Fifth—They stimulate the liver and carry off vitiated bile and other depraved secretions.

The first two or three doses tell the story. The skin becomes clear, the eyes bright, and mind active, digestion is restored costiveness cured, the animal vigor is recruited and all decay arrested.

Brandreth's Pills are sold in every drug and medicine store, either plain or sugar coated.

A Great Liver Medicine

Dr. Gunn's Improved Liver Pills are a sure cure for sick headache, bilious complaints, dyspepsia, indigestion, costiveness, torpid liver, etc. These pills insure perfect digestion, correct the liver and stomach, regulate the bowels, purify and enrich the blood and make the skin clear. They also produce a good appetite and invigorate and strengthen the entire system by their tonic action. Sold at 25 cents a box by S. J. Hodgkinson.

THE TRUCKEE SHOOTING.

How James Reed Happened to Kill Constable Jacob Teeter.

The Truckee *Republican* contains the following account of the shooting of Jacob Teeter at that place Friday night:

"There is liable to be a funeral soon," remarked a citizen last evening about half past 5 o'clock. Continuing, he said; "Teeter and Reed are having a time down the street, and Reed isn't the man to stand any foolishness. Teeter had better keep away and let up on him."

Before proceeding to narrate "the time" which the two men were having, it is well to premise a little.

Jacob Teeter is a Constable, and has held the office for many years. James Reed held the same office a few years ago at the same time as Mr. Teeter. Any trouble existing between the two can be dated back to that time. During the past four or five years there has been but little communication between them, and, in fact, have scarcely spoken to each other for more than a year.

For the past year Mr. Teeter has been drinking somewhat. Periodically he would over-indulge. The effect of liquor on him was to make him crazy. At such times he would brood over his troubles, which he would magnify, and in brooding over them he would connect his troubles with persons whom he would hold responsible for them. In this way he would consider certain citizens his sworn enemies. He would talk of them as robbers, thieves and murderers; that they were driving him to starvation. He has occasionally been wrought up to such a state of excitement that he would threaten to kill his fancied enemies, and has on one occasion laid in wait, evidently for the purpose of killing a prominent citizen. He was a man without fear, recklessly daring, and when he was in the condition above described, was dangerous. He would brook no opposition to his views and his friends both feared him and feared for him.

For several days prior to Friday he had been drinking heavily. The old subject of his troubles and his "enemies" came into his mind. He was restless; the flashes of his eyes gave an index to his thoughts. He talked of his troubles.

He was in Hurd's saloon when Reed came in with several others, all on their way to supper, which they were to partake of in the restaurant in the rear of the saloon.

They were waiting the preparation of the meal which had been ordered, when Teeter spoke up, and addressing no one in particular, said: "I ain't no —— of a —— and I never beat a man's brains out with a rock."

Reed asked, "Are you addressing that to me?"

"You can take it if you want to," was the reply.

Then the other says "see here, Jake, I don't want any trouble with you, but you've been harrassing me long enough. Now I don't want to hear any more of it and you have got to quit."

A little more talk followed, when Teeter called a vile name and drew a pistol. Reed grabbed the weapon and struck Teeter. They scuffled a little, Reed remarking that he did not propose to be killed. He insisted that Teeter should surrender the pistol, which he finally gave to R. W. Dixon. Reed then remarked that he didn't want to hurt him (Teeter) and for him to go away and mind his business. That he wasn't armed and wouldn't hurt him. Teeter then went out of the saloon. A friend advised Reed to get a pistol as Teeter might again arm himself and get him where he could not defend himself. Reed then went to his residence and got a pistol. The party consisting of Dixon, Burdett, Martin and Reed then went to supper. While they were eating Teeter returned and stood near the stove.

After supper the party returned from the restaurant into the saloon. Reed was the last to enter. No sooner had he entered than Teeter advanced towards him and drawing a pistol discharged it at him.

POP, POP, POP,

Quicker than it can be written Reed returned fire. The shots rang out so quickly that many heard only two or three while others imagined that there were a dozen. But it has been ascertained that Teeter shot twice and Reed four times. Teeter's aim was bad and the bullets struck the back wall above the door. Reed was more cool and every one of his shots took effect. One bullet penetrated the abdominal cavity entering two inches above the navel and lodging beneath the skin at the back, where it was afterwards extracted by Dr. Curless. Another bullet struck the chest and passing to the right came out about five inches from where it entered. It did not penetrate the cavity of the chest. Another passed through the forearm a little above the wrist, breaking the bones. Another inflicted a slight scalp wound on the left side of the head. One of the bullets after hitting Teeter glanced and struck a bystander on the head making a slight wound. Teeter fell heavily to the floor. It was seen at once that the wounds were serious and he was removed to his home where Doctors Curless and McCurdy attended him. They saw that the wounds were fatal and that little could be done save to alleviate pain. He was unconscious until early this morning. He weakened gradually and expired at 10:30 this forenoon.

Last night immediately after the affair Reed offered to surrender himself to Constable Long, but the officer did not think it necessary to lock him up. A *Republican* reporter interviewed Mr. Reed this forenoon but the latter did not desire to make any statement except to express his sincere regret over the affair and to affirm that he could not have acted different than he did.

Mr. Teeter has been a resident of Truckee since the town has borne that name, and he has been constable at least half of the time that he has lived here. He has proved an efficient officer, and on many occasions has distinguished himself in performing the duties of the office. He was regarded as an honest man and was a kind husband and father. He leaves a wife and five children, the youngest about thirteen years old. They have the sympathy of all in their sorrow.

The affair is one generally regretted and the expressions of sympathy are deep and universal.

Now that nearly all the train agents who were employed by the Southern Pacific Company have been dismissed and the conductors have been placed in charge of tickets and money collected on the trains, a strong effort is being made by the latter to show that the railroad lost money by employing the agents. They claim they are turning in more money than the agents ever did.

A ROARING FARCE.

"Skipped by the Light of the Moon."

To-night at McKissick's Opera House will be presented the above named roaring force. It is a continued laugh from beginning to end. The Pittsburg *Leader* says of it: "The strangest, quaintest, oddest, funniest, most ludicious characters, scenes, situations, sayings and doings are embodied in this play. Humor of the most unctious, rollicking, jovial, side-splitting is its distinguishing feature. Such laughter as it invokes wherever it is produced has never before been heard within the walls of any theater in this city."

Free Letter Delivery in Small Towns.

The Truckee *Republican* says: One of the small towns selected by Postmaster-General Wanamaker for a test of free-delivery service was Roseville, in Placer county, where Postmistress Pitcher thinks it has been a success, although it has a tendency to reduce her salary because fewer boxes are rented. There are two postal deliveries daily in Roseville, one at 8 A. M. and one at 4 P. M. It is expected that Wanamaker will this winter recommend the extension of the free delivery to all towns of the same class as Roseville. The experiments during the present year were made possible by a $10,000 appropriation provided by the last Congress.

Here is the latest list of the wealthiest women of the United States: Mrs. Hettie Green of New York is credited with a fortune of $40,000,000 in her own right; Miss Elizabeth Garret has $20,000,000; Mrs. Mark Hopkins had $20,000,000; Mrs. Edwin Stevens $15,000,000; Mrs. John C. Green $10,000,000; Mrs. Cyrus McCormick $10,000,000; Mrs. John Jacob Astor $5,000,000; Mrs John B. Berton $6,000,000; Mrs. William Armor $5,000,000; Mrs. Terry $20,000,000, while Mrs. Terry's baby daughter 3 years old, distances all competitors by having wealth in her own right valued at $50,000,000.

Disasterous Failure!

It is with feelings of regret that we announce the failure of hosts of people troubled with inaction of the kidneys to take sufficient means to renew their activity This failure is most disasterous, for a complete wreck of the organs themselver must eventuate if timely means are not taken to re-establish their secretive function on the basis of activity and regularity. Hostetter's Stomach Bitters renews both, and prevents ultimate and fatal disaster. As it is one of the functions of the kidneys to strain from the blood, in its passage through them, impurities procreative of dropsy, rheumatism and gout, an early impetus is all the more needful to be given to their operations when tardy or ineffectual. The unmedicated at mull of commerce do not answer this purpose. Use the Bitters for dyspepsia, malaria, constipation and biliousness.

EARTH'S INTERIOR.

Thought to Be Stored with Precious Metals.

Schemes of Congress to Investigate the Matter by Boring for the Minerals — Work in Progress.

A scientific scheme of much importance has been agitated in Washington recently, says the Star. During the last two congresses there have been a number of representatives and two or three senators who have used their influence in favor of an appropriation for boring a hole in the earth several miles in depth. It has long been recognized that an inconceivable amount of value in the shape of precious metals and other mineral substances is locked up out of reach beneath the crust of this planet. All the riches dug out of it represent merely the most superficial and ineffective scratching of the surface. Once render accessible the internal recesses of the sphere and it is plain that every human being might be a thousand times a Monte Cristo.

Geologists are agreed that the interior of the earth is largely composed of metals. Whereas the surface matter of the planet weighs only about two and one-half times as much as water, it is known as a fact that toward the center the average weight of things is eleven times that of water. This is due to the circumstance that while this sublunary orb was cooling and condensing the heavier particles sought the middle. Therefore it is probable that the great mass of the sphere is iron. But there are other metals more heavy than iron, and these would naturally form an accumulation immediately about the center of the globe. Among them may be mentioned most important gold. Geologist Gilbert, of the geological survey, said the other day that he would rather expect to find a vast accumulation of gold at that point than anywhere else, his notion being that such of the yellow metal as is found on the surface of the earth is only an accidental detritus. However, there are two or three substances known even more weighty than gold, and one of them is platinum, which has doubled in market value within the last year or two, owing to the increased cost of production.

So it is not unreasonable that certain members of congress and other persons of keen judgment should consider the advisability of boring a hole in the earth for the purpose of extracting some of its metallic contents. For scientific purposes a pit has recently been sunk at Speling, in Germany, to the depth of a mile. Unfortunately, water has been struck, and no results which add very materially to human knowledge have thus far been obtained. Another well has been driven at Wheeling, W. Va., as far down as three-quarters of a mile. It is dry and the boring process is proceeding at the rate of about ten feet a day. The management will be disgusted if oil or something is not struck before the hole comes out at the antipodes and somebody tumbles into it at the other end.

No really scientific person has been so foolish as to imagine that possible results, commercially speaking, could be secured without digging much farther than this. Estimate is made that at twenty miles from the surface of the earth every known substance—metals rocks and all—becomes fused and liquid. Once let this point be reached, and naturally whatever is below must spout up of its own accord, without expense of mining. Immediately the price of metals in the market would be reduced to little or nothing and a new age would dawn upon civilization. It has been suggested that such an artificial conduit would be, to all intents and purposes, a volcano, but any dangers which it would otherwise threaten might be obviated easily by establishing the works on an open prairie.

DON'T FOOL WITH WIDOWS.

How a Big Fellow Tumbled Overboard and Lost His Teeth.

An amusing accident happened one day last week to a participant in a sailing party at Bar Harbor, the true inwardness for which is even yet unknown to the other members except one, says the New York World. There were four couples. Among them was a charming young widow whose little boy was kept carefully in the background. Her escort was a big, brawny, good-natured fellow, for all the world like the ideal man the lorn woman would cling to. The boat ran a considerable distance out, and then the happy pairs nestled closer to each other, conversation lagged and became half whispered. The widow and her beau were in the shadow of the sail. A gust of wind caused the craft to roll and instantly a heavy splash startled the excursionists from their reverie. The big fellow had fallen overboard. He was fished out, but the sudden moroseness which he had apparently acquired in the water made him a veritable damper on the company and the party was headed toward the shore. The unfortunate took the express north the next day. The widow, learning he had gone, told a friend in great confidence and with many blushes that the poor man was just about to kiss her when the boat rocked, and in his excitement his false teeth became loose and sank in the sea. She knew it, for she saw them flash in the moonlight ere they disappeared forever.

College Bred.

A freshman in a college in the city was anxious to mail a letter. Having been told to drop it into the red box at the corner, he hurried out of the building and ran down the street. He saw a red box, but could find no opening in which to put his letter. He searched for any possible direction on the box, and noticed, in large letters: "Ring twice." He rang twice, says the San Francisco Argonaut, and waited to see what would happen, expecting a door to fly open into which he could drop the letter. Suddenly an open buggy dashed up and a man in blue uniform jumped out. "Where is it?" he demanded. "Here it is, thank you," said the freshman; "please mail it at once." The fire captain looked at the letter and then at the student's retreating figure. Then he dropped the letter into the box across the street, reported the alarm false and went back to the station.

SMALLPOX ON SHIPBOARD.

Trying Times for the Captain, Requiring Nerve and Presence of Mind.

There is nothing more formidable, says Sir James Poole in the London Daily News, than for a captain of a vessel to find himself on the surface of the broad ocean face to face with a terrible outbreak of infection. Happily there are captains who are equal to the duties which that sorrowful position imposes on them. The Mercantile Marine Service association at Liverpool, of which Sir James was the spokesman, has presented to Capt. Dugald Lyon, master of the ship Sierra Pedrosa, owned by Messrs. Anderson & Co., a gold watch and chain "in recognition of his devotion and energy in personally attending to the members of his crew attacked by smallpox on the voyage from Chittagong to London." It was shortly after leaving the former port that this loathsome disease broke out aboard; it spread and continued until the vessel reached the Cape of Good Hope, just fifty-five days out. Short-handed and bound by the rules of the service to consider the interests of owners and underwriters as well as those of the crew and officers, Capt. Lyon nevertheless took the first sufferers into his cabin. Three men subsequently falling victims to the disease, he was compelled to take stringent measures for shielding other members of the crew from contamination; but throughout the voyage the humane and indomitable captain of the Sierra Pedrosa "attended his patients like a hospital nurse, and washed them and gave them relief three or four times a day."

Gerome's Advice to a Pupil.

Gerome, the French artist, has many pupils in New York, and they tell good stories of their master. Here is one of the best: A titled man about town, after wasting much time in the Latin quarter, finally managed by hook or crook to become enrolled as a pupil of the great master. Day after day the nobleman came, took his place before the model, and sketched as best he could. Finally Gerome paused before the new pupil one day, and said: "You come here in the morning; what do you do in the afternoon?" "Oh," said the nobleman, "I ride in the Bois, see a few of my friends and then dress for dinner." "You do," mused the master, "Don't you think you'd better do the same things in the morning, also?" The next week a new pupil had the nobleman's place before the model.

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss. 9

A Severe Law.

The English people look more closely to the genuineness of these staples than we do. In fact, they have a law under which they make seizures and destroy adulterated products that are not what they are represented to be. Under this statute thousands of pounds of tea have been burned because of their wholesale adulteration.

Tea, by the way, is one of the most notoriously adulterated articles of commerce. Not alone are the bright, shiny green teas artificially colored, but thousands of pounds of substitutes for tea leaves are used to swell the bulk of cheap teas; ash, sloe, and willow leaves being those most commonly used. Again, sweepings from tea warehouses are colored and sold as tea. Even exhausted tea leaves gathered from the tea-houses are kept, dried, and made over and find their way into the cheap teas.

The English government attempts to stamp this out by confiscation; but no tea is too poor for us, and the result is, that probably the poorest teas used by any nation are those consumed in America.

Beech's Tea is presented with the guaranty that it is uncolored and unadulterated; in fact, the sun-cured tea leaf pure and simple. Its purity insures superior strength, about one third less of it being required for an infusion than of the artificial teas, and its fragrance and exquisite flavor is at once apparent. It will be a revelation to you. In order that its purity and quality may be guaranteed, it is sold only in pound packages bearing this trade-mark:
